AHTASHAM ILYAS

Full Stack App-Developer & AI Researcher

About Me

As a highly motivated and results-driven individual with a strong background in Computer Science, I am confident in my ability to make a significant contribution to any organization. With 4 years of experience in Prime Mission, NTC & SelfLearning, I have developed a diverse set of skills and expertise, including App Development, Web Development and Artificial Intelligent. I am highly adaptable and thrive in fast-paced, dynamic environments, and I am always seeking new challenges and opportunities to grow and develop both personally and professionally. I am excited to bring my skills, experience, and passion to a new role and make a meaningful impact on the success of the organization

Work Experience

App Developer at @NTC

May 2020 - Present

Expert app developer with over 4 years of experience in creating intuitive and user-friendly mobile applications for both iOS and Android platforms. Skilled in various programming languages and technologies, including Java, Dart and C++, with a strong understanding of software development best practices and agile methodologies.

Java Coding at @SelfLearning

June 2021 - 2022

Proven track record of success in developing and maintaining complex Java-based applications for a variety of industries, including finance, healthcare, and e-commerce.

Junior Web Developer at @PrimeMission

Jan 2019 - May 2023

Motivated junior web developer with a strong foundation in HTML, CSS, and PHP, as well as experience in developing responsive and user-friendly websites using modern frameworks and libraries.

Education

Bachelor of Computer Science from Mirpur University of Science Technology

2019 - 2023

Hold a bachelor's degree in Computer Science from a reputable institution, with a strong foundation in a wide range of technical and theoretical concepts related to computer science and software engineering. Skilled in multiple programming languages and technologies, including C++, Java, Python, and SQL, with a proven ability to learn and adapt to new technologies quickly. Completed a variety of hands-on projects and coursework focused on software design, development, and testing, as well as data structures, algorithms, and computer systems. Participated in multiple hackathons and coding competitions, demonstrating my ability to work effectively in a team and deliver high-quality solutions under tight deadlines. Passionate about using my technical skills and knowledge to solve real-world problems and make a positive impact through technology.

Science and Mathematics from Nobile-Aims School and United-College

2004 - 2019

I am a highly motivated and detail-oriented individual with a strong background in science, computer science, and mathematics. I have completed coursework and projects in a variety of disciplines, including physics, Computer, statistics, and applied mathematics. I have a strong foundation in theoretical and technical concepts and have demonstrated my ability to apply this knowledge to solve real-world problems. I am highly analytical and have a passion for using data and technology to drive decision-making and achieve results. I am excited to bring my skills, knowledge, and enthusiasm to a new role and make a positive impact in the field of science, computer science, and mathematics
